CHARGING SOLUTIONS

Smart Solutions for Every Need.
Powering Every Journey.

From homes to highways, we provide reliable, future-ready charging solutions for every environment and every need.

1. HOME CHARGING

Charge smarter at home. Easy installation for apartments and villas, safe and reliable daily charging, compatible with all EVs.

2. COMMERCIAL CHARGING

Build a revenue-generating EV hub. Ultra-fast charging for high footfall locations, designed for businesses and fleet operators.

3. PARK & CHARGE

Turn your business into a go-to destination with reliable charging stations that attract and retain EV drivers.

4. COMMUNITY CHARGING

Transform your neighborhood into an EV-friendly community with convenient on-site charging.

5. PUBLIC CHARGING

Deliver dependable service with our Charger Management System, ensuring effortless integration and seamless reliability.

6. FLEET CHARGING

Support your commercial fleet with high-uptime charging infrastructure built for daily heavy usage.

7. DESTINATION CHARGING

Add premium EV charging to malls, hotels, and campuses for longer stays and better customer experience.

8. HIGHWAY CHARGING

Keep long-distance drivers moving with strategically placed charging hubs on major highway routes.

9. WORKPLACE CHARGING

Enable employees and visitors to charge reliably at office campuses with smart energy management.

PERFORMANCE

ENERGY
EFFICIENT

3.3 kW
OCPP

Compact single-phase AC
charger built for all-weather
home use.

Power Output:
3.3 kW

Connector Type:
IEC 60309 Socket

Input Voltage:
180–300 V AC, Single Phase

Output Current:
16 A

Protection Rating:
IP67

Certifications:
BIS Certified

7.4 kW
OCPP 1.6J

Three-phase AC charger
ideal for apartments and
gated communities.

Power Output:
7.4 kW

Connector Type:
Type 2 (IEC 62196)

Input Voltage:
380–415 V AC, Three Phase

Output Current:
32 A

Protection Rating:
IP65

Certifications:
BIS Certified

POWERING A GREENER TOMORROW WITH
SMART AC CHARGING SOLUTIONS.
